NETOORK

LLC · SMALL BUSINESS

Capability Statement

IT HARDWARE · NETWORK ENGINEERING

COMPANY OVERVIEW

NETOORK LLC is a Texas small business that supplies new commercial off-the-shelf IT products to government, education and commercial customers, and provides short-term network engineering. The company is engineer-led: a senior network engineer reviews every quote for technical accuracy.

CORE COMPETENCIES

- **Networking:** switches, routers, wireless, optics and structured cabling components
- **Security:** next-generation firewalls and security appliances
- **Compute and storage:** rack servers, storage arrays, high-performance workstations, custom configurations
- **Renewals:** support contracts, subscriptions and licenses for network and security platforms
- **Engineering:** network design and review, configuration and deployment, troubleshooting; remote or on site in the Houston area

DIFFERENTIATORS

- **Engineer-checked bills of materials:** compatibility of optics, power, licensing and support terms verified before quoting
- **New stock from legitimate sources:** authorized distributors and manufacturers only, no marketplace or gray-market product
- **Country of origin confirmed** before quoting, for TAA and Buy American requirements
- **Direct access** to the engineer who prepared the quote

BRANDS COMMONLY QUOTED

Cisco · Palo Alto Networks · Fortinet · Arista · Dell · Lenovo · HP · Supermicro · NetApp · APC · Eaton · Panduit · Corning

Trademarks belong to their owners. Listing does not imply a partner relationship with the manufacturer.
